Squad Programme information

Congratulations on choosing to swim with the State Swim Squad Programme.

Attaining this goal is quite an achievement as it means you have reached a good standard in your four main strokes.

Squad swimming maintains the standard you have achieved, important Racing Turns, as well as improving your general fitness. You have reached a level in swimming that enables you to have a good knowledge of strokes, now it is important that you maximise your swimming as a member of our Squad Programme.

The Squad Programme is designed to give young swimmers experience in a large number of exciting and varied activities.

These include:

- Inter-school Carnivals
- Superswims
- State Swim Challenge
- Long Distance Days
- Special Event Days

Squad Super Swims

These events are held monthly where possible and every member of the squad will have the opportunity to swim several events (subject to time and entries). The times for each swimmer will be recorded and if times are an improvement on previous swims, Super Swim Cards will be presented. When a total of 10, 20 and 30 Super Swim Cards are collected a medal will be presented. When 50 cards have been achieved a trophy will be awarded to the swimmer.

We trust that your swimmer will enjoy their time as a member of our State Swim Squad Programme.
